

# Snow Themed

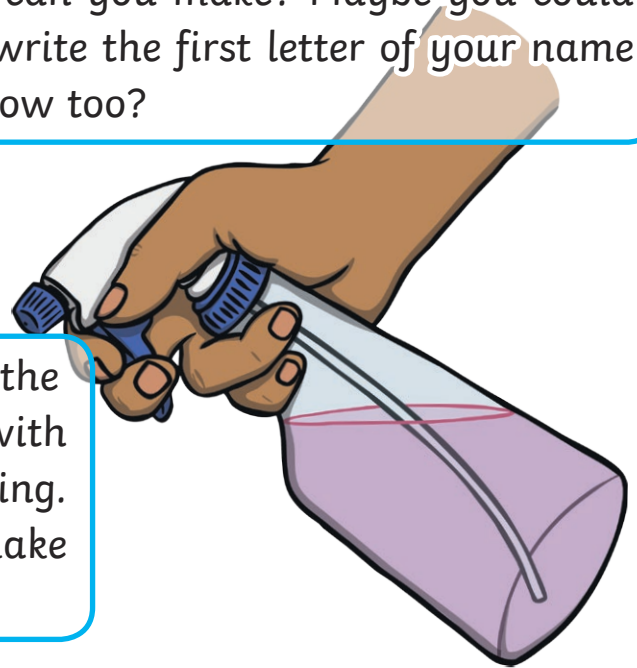

## Home Learning Challenges

Do you want to build a snowman? If you have lots of snow you can build a wonderful snow person. Find some stones for the buttons. Can you give your snowman 5 buttons? Point to each button as you say the number.

Can you use your finger or a stick to make some patterns in the snow? What different patterns can you make? Maybe you could try and write the first letter of your name in the snow too?

Have you ever thought of painting the snow? Fill some water spray bottles with cold water and a few drops of food colouring. See what colourful creations you can make in the snow!

Look for footprints in the snow. Can you see where people have been walking? Can you spot any other prints? Maybe from a dog, a bird or a cat! Can you make footprints too? Make a trail of footprints for someone to follow.
